DETAILED ACTION

Claims 1-16 are pending in this application.

Priority

Priority to Application Number 09/670,166 filed September 26, 2000, now U.S. Patent Number 6,608,096, has been acknowledged.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to **patentability** as defined in 37 CFR 1.56. (emphasis added).

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 1614

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-6 and 9-16 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-41 of U.S. Patent No. 6,362,207. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are both drawn to treating viral infection, including HIV, in mammals using overlapping compounds, carriers, and polymers.

Claims 1-6, 9-12, and 15-16 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9-20 of copending Application No. 09/703,955 (US 2003/0149088 A1). Although the conflicting claims are not identical, they are not patentably distinct from each other because they are both drawn to the treatment of viral infections, including HIV, using overlapping compounds and carriers.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

Art Unit: 1614

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7 and 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by

Paget et al., Heterocyclic Substituted Ureas. I. Immunosuppression and Virus Inhibition by Benzimidazoleureas, Journal of Medicinal Chemistry, Vol. 12, pages 1010-1015, (1969), American Chemical Society.

Paget et al., teach treating mice with compounds that meet those claimed instantly in claims 1 and 7-8 and that said compounds have shown *in vivo* activity against a wide spectrum of viruses. The reference teaches intraperitoneally administering, to mice, said compounds with pharmaceutically acceptable carriers and teaches administering the compounds in amounts that overlap those claimed in claim 10; thus meeting the specific limitations of instant claims 9 and 11-12. See: page 1010, col. 1, first paragraph – page 1014, col. 1, first paragraph; page 1015, col. 1, fourth full paragraph – col. 2, last paragraph.
